| 5. (WO 2007/058684) SYSTEM AND METHOD FOR DIRECTED REQUEST FOR QUOTE | 24.05.2007 | G06Q 40/00 | CHICAGO MERCANTILE EXCHANGE INC. |

The disclosed systems and methods relate to allowing trading of over the counter ('OTC') foreign exchange ('FX') contracts on a centralized matching and clearing mechanism. The disclosed systems and methods allow for anonymous transactions, centralized clearing, efficient settlement and the provision of risk management/credit screening mechanisms to lower risk, reduce transaction cost and improve the liquidity in the FX market place. In particular, the disclosed embodiments increase speed of execution facilitating growing demand for algorithmic trading, increased price transparency, lower cost of trading, customer to customer trading, and automated asset allocations, recurring trades as well as clearing and settlement efficiencies.

6. (WO 2007/047569) VIRTUAL ENVIRONMENTS 26.04.2007 G06F 13/00 LEVIATHAN ENTERTAINMENT

A system and method to allow players of a video game to transfer funds between entities in a virtual environment. According to some embodiments, real world financial instruments such as 3 credit card or other financial instrument may guarantee some or all of the virtual financial operations.

7. (WO 2007/046884) METHOD OF TRADING SECURITIES 26.04.2007 G06Q 40/00 OPTIONEER, LLC

A method and a system for setting up a security trade over a network are presented. The method entails calculating a call strike price and a put strike price based on the current market price and a probability factor. A sale is recommended for a predetermined number of call options at the call strike price and the predetermined number of put options at the put strike price. A purchase of a put and call inside protections are recommended at about x points above the put strike price and at about y points below the call strike price, respectively, wherein x and y are determined according to a general level of risk participants are comfortable with. Call outside protection and put inside protection are recommended to be purchased outside the ca...

8. (WO 2007/046627) CONSTRUCTION ASSET BACKED SECURITIES METHOD WITH PUD AUCTION THROUGH INTERNET 26.04.2007 G06Q 99/00 J-HOUSE CO., LTD.

The present invention is relating to the construction asset backed securities method through Internet, wherein above the method comprising the following steps: - registering developers, enterprises (Special Purpose Company; SPC) and financial institutions accessed to the PUD auction server as main bodies for development project; - proposing the project land for auction received the consents of enrolled landowners within the subject districts, after determining the project boundary with the Optimal Zoning Program in GIS fold of the Geography and Image server (S2) based on the overall data for a group of enrolled lands which are input by registered developer; - registering multiple alternative plans approvable to project as the alternative pl...

9. (WO 2007/044964) METHOD AND SYSTEM FOR DATA BACKUP 19.04.2007 G06F 17/30 DATACASTLE CORPORATION

Embodiments of the present invention are directed to Web-Services- based data backup and data-archiving applications that provide remote data backup and data archiving to private individuals, small businesses, and other organizations that need reliable, secure, geographically remote, and cost-effective data backup, data archiving, and backed-up and archived-data retrieval. In one embodiment of the present invention, a private or small-business client contracts with a service provider for data-backup and data-archiving services. The service provider, in turn, contracts with a remote data-storage facility to provide secure, reliable data backup and data archiving to the personal or small-business client. A client-side application is downloade...

10. (WO 2007/044430) PROCESS AND METHOD FOR ESTABLISHING A COMMODITY CEILING GAP OPTION TARGETED FOR RETAIL CONSUMPTION 19.04.2007 G06Q 40/00 DELTA RANGERS, INC.

A product and process that will enable retail consumers to hedge their exposure to volatile household commodities, such as gasoline and natural gas, by implementing optionality through channels where individuals already purchase those commodities. In turn, this aggregated retail optionality provides an attractive investment vehicle for institutions active in the energy and commodity markets. A commodity supplier such as gasoline retailer (or natural gas utility, credit card issuer, etc.) can sell caps on the cost of gasoline, etc. to its existing customers, in return for a periodic premium billed to the customer's captive credit card statement or utility bill. A dealer can package and securitize the risk in tranches.

11. (WO 2007/035812) SYSTEM AND METHOD FOR PROVIDING A CUSTOM HEDGED ADJUSTABLE RATE MORTGAGE 29.03.2007 G06Q 40/00 UHLMANN, Charles, E.

Methods, media, and systems for providing a custom hedged adjustable rate mortgage are provided. These methods, media, and systems provide hedge and protection that may be used in combination with the retail mortgage contract. The

media, and systems provide hedges and mortgages that may be used in conjunction with the retail mortgage sector. To facilitate these hedges and mortgages, computer systems are provided that allow a user to calculate fees, interest rates, and payments for these products based upon various factors selected by a user. The methods, media, and systems also provide a savings calculator that enables a user to determine what savings will be made by purchasing a hedge and/or mortgage under one or more scenarios.

12. (WO 2007/035195) SYSTEM AND METHOD FOR INVENTORY CONTROL 29.03.2007 G06Q 10/00 NAMX, INC.

A system and method, for example, for allowing a tangible good dealer to automatically purchase new tangible good inventory, automated scheduling of tangible good inspections, establishing an integrated market for tangible goods in which sale of tangible goods by dealers may be subject to automated controls, integrating and weighting of retail sales and cost data for tangible goods, establishing a wholesale market for tangible goods, establishing a wholesale market for leased tangible goods, and deriving tangible good valuation comparison indices. The system may include a computer system configured to automatically bid on tangible goods to increase inventory of tangible goods, and specify an inventory rating based on tangible good valuation...

13. (WO 2007/030766) SYSTEM GAMING 15.03.2007 G06F 19/00 BALLY GAMING, INC.

A method provides a player tracking system and system gaming apparatus for playing non-base games by funding the credit side of a gaming cycle. The system further includes at least one gaming device having a base game. The player tracking system and system gaming apparatus includes a player tracking user interface. The player tracking user interface provides a player with an opportunity to select and play a non-base game that may be promotional-funded or player-funded.

14. (WO 2007/030328) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 15.03.2007 G06F 13/00 HARRIS CORPORATION

Embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided. An embodiment of a program product stored in a tangible computer medium, for example, can include instructions to perform the operation of providing an industry generic framework to thereby provide a content management program product adapted to define metadata related to media content and to manage content relationships. The instructions can also include those to perform the operations of providing a code generator adapted to generate program code for the industry generic framework, and providing a plurality of media industry specific core reusable modules adapted to provide a plurality of media industry specific functions...

15. (WO 2007/028158) ENERGY AND CHEMICAL SPECIES UTILITY MANAGEMENT SYSTEM 08.03.2007 A01D 46/00 LIGHTRIDGE RESOURCES LLC

A method for energy and chemical species utility management having an integrated software system and infrastructure arrangements configured to manage one or more levels of utilities operation, arranged in co-operative fashion to achieve collective goals.

16. (WO 2007/027484) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 08.03.2007 G06F 15/173 HARRIS CORPORATION

Embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided. An embodiment of a system, for example, can include a first preselected network framework defining a first network stage and a second preselected network framework responsive to the first network stage and defining a second network stage. The system can also include a code generator responsive to the second network stage to generate program code, a framework stage responsive to the code generator to establish a content management framework and defining a content search engine; a media content services core responsive to the content search engine to enhance digital file management and allow a plurality of media content management...

17. (WO 2007/026159) METHOD OF REPRESENTING DATA IN AN EFFICIENT MANNER 08.03.2007 G06Q 40/00 CRESCENT TECHNOLOGY LIMITED

No Abstract

18. (WO 2007/024985) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 01.03.2007 G06F 17/30 HARRIS CORPORATION

The embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided (See Figure 1). An embodiment of a method, for example can include analyzing a user assigned role to allow access to specific data in a database in response to the user assigned role, capturing and storing metadata from multiple sources accessible by a plurality of different types of users, and tracking access to and changes in data in a database in response to user database access to thereby form transaction activity trails describing access and changed data to enhance digital file management and allow a plurality of media content management services to be performed.

19. (WO 2007/021801) METHOD AND APPARATUS FOR GENERATING LIQUIDITY FOR DISSIMILAR ASSETS USING CATEGORY GROUPINGS 22.02.2007 G06Q 40/00 MICROTICK, LLC

A system, method and means creates liquid markets capable of grouping assets by correlation and trading the grouped assets as intangible category markets in addition to the individual assets. The category markets are correlated to the individual assets by standardized covariance options. The resulting marketplace has uses for standardized trading of dissimilar assets, information markets, prediction markets and related search engine technology as well as any other asset markets.

20. (WO 2007/021644) EQUITY-INDEXED ANNUITY FOR GROUP SAVINGS PROGRAMS 22.02.2007 G06Q 40/00 ELM INCOME GROUP, INC.

A Group Equity-Indexed Annuity (GEIA) with a guaranteed minimum equity related return for a set of individuals are provided. An algorithm sets a 'participation rate' of a GEIA contract as well as the carrier margin, risk and opportunity for recovery. The carrier is held accountable to the participation rate produced by the model investment portfolio in the formula and subject to the guaranteed minimum. The selection of the participation rate is entirely visible to a GEIA contract-holder. A 'hedge budget' is based on a formula-driven amortization process that blends old and new money. Underlying assets are also managed to a 'constant' duration, such as the duration of a bond index selected by the GEIA contract-holder.

21. (WO 2007/019085) SYSTEM AND METHOD FOR ORGANIZATION OF FINANCIAL STRUCTURED PRODUCTS 15.02.2007 G06Q 40/00 SPARAGGIS, Panayotis, T.

A method of analytically modeling structured products and optimizing portfolios of structured products, comprising: relating investors' financial risk/reward objectives to structured products available in an structured product database; selecting structured products that qualify for inclusion in an structured product pool that targets to meet investors' objectives; and using advanced analytical computer aided techniques including Monte-Carlo analytical simulation to evaluate risk/reward characteristics of different portfolios of structured products and determining the optimal mix of available structured products for inclusion in an structured product pool that targets a specified set of investors' risk/reward objectives.

22. (WO 2007/013968) REAL-TIME PLAY VALUATION 01.02.2007 A63F 13/00 PROTRADE SPORTS, INC.

A valuation system determines in real-time values of plays occurring during games by identifying a play that occurred during a game. The system determines an expectation of scoring prior to the play occurring, and an expectation of scoring that results from the play occurring. The system then calculates a value of the play as the difference between the expectation of scoring that results from the play occurring and the expectation of scoring that existed prior to the play occurring, and any scoring generated by the play.

23. (WO 2007/002843) SYSTEMS AND METHODS FOR VENDING AND ACQUIRING ORDER PRIORITY 04.01.2007 G06Q 40/00 ESPEED, INC.

Systems and methods for vending and acquiring of trading priority in electronic trading systems are provided. The systems and method provide for vending and acquiring priority in any suitable electronic trading system. Such suitable electronic trading systems include, but are not limited to, hit/lift exclusive priority systems, price time priority systems, order allocation systems, and request for quote systems.

24. (WO 2007/002759) SYSTEM AND METHOD FOR CONTROLLING DEALER/CONSUMER INTERACTION 04.01.2007 G06Q 10/00 NAMX, INC.

A system and method, for example, for enabling a dealer to provide information regarding inventory and non-inventory tangible goods, enabling inventory of tangible good selling dealers to be sold to a consumer at a remote tangible good purchasing dealer site, and enabling a tangible good selling dealer to select from at least two product variables for negotiating a tangible good sale with a consumer. The system may include a computer system configured to provide information regarding an inventory tangible good actionable price, provide information regarding a non-inventory tangible good actionable price, and integrate the inventory and non-inventory tangible good information into a retail sales

good actionable price, and integrate the inventory and non-inventory tangible good information into a retail sales presentation to a consumer to enable the consu...

25. (WO 2007/002754) SYSTEM AND METHOD FOR TANGIBLE GOOD VALUATION

04.01.2007 G06Q 30/00 NAMX, INC.

An improved system for valuation of tangible goods, such as automotive vehicles includes isolation processes configured to discern the valuation of specific vehicle elements in real time, thereby enabling physical (vehicles that do exist) and hypothetical (vehicles that do not exist) new as well as used vehicle valuations, using transaction data being electronically updated as transactions occur in an electronic marketplace. The processes generate a current base value and plural current constituent values corresponding to characteristics of the vehicle affecting value such as trim level, package options, unit options and the like. A regression model embodiment determines a current base value and one or more current constituent values.

A method provides a player tracking system and system gaming apparatus for playing non-base games by funding the credit side of a gaming cycle. The system further includes at least one gaming device having a base game. The player tracking system and system gaming apparatus includes a player tracking user interface. The player tracking user interface provides a player with an opportunity to select and play a non-base game that may be promotional-funded or player-funded.

15. (WO 2007/030328) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 15.03.2007 G06F 13/00 HARRIS CORPORATION

Embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided. An embodiment of a program product stored in a tangible computer medium, for example, can include instructions to perform the operation of providing an industry generic framework to thereby provide a content management program product adapted to define metadata related to media content and to manage content relationships. The instructions can also include those to perform the operations of providing a code generator adapted to generate program code for the industry generic framework, and providing a plurality of media industry specific core reusable modules adapted to provide a plurality of media industry specific functions...

16. (WO 2007/028158) ENERGY AND CHEMICAL SPECIES UTILITY MANAGEMENT SYSTEM 08.03.2007 A01D 46/00 LIGHTRIDGE RESOURCES LLC

A method for energy and chemical species utility management having an integrated software system and infrastructure arrangements configured to manage one or more levels of utilities operation, arranged in co-operative fashion to achieve collective goals.

17. (WO 2007/027484) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 08.03.2007 G06F 15/173 HARRIS CORPORATION

Embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided. An embodiment of a system, for example, can include a first preselected network framework defining a first network stage and a second preselected network framework responsive to the first network stage and defining a second network stage. The system can also include a code generator responsive to the second network stage to generate program code, a framework stage responsive to the code generator to establish a content management framework and defining a content search engine; a media content services core responsive to the content search engine to enhance digital file management and allow a plurality of media content management...

18. (WO 2007/026159) METHOD OF REPRESENTING DATA IN AN EFFICIENT MANNER 08.03.2007 G06Q 40/00 CRESCENT TECHNOLOGY LIMITED
No Abstract

19. (WO 2007/024985) SYSTEM, PROGRAM PRODUCT, AND METHODS TO ENHANCE MEDIA CONTENT MANAGEMENT 01.03.2007 G06F 17/30 HARRIS CORPORATION
The embodiments of systems, program products, and methods to enhance and more effectively manage media content are provided (See Figure 1). An embodiment of a method, for example can include analyzing a user assigned role to allow access to specific data i a database in response to the user assigned role, capturing and storing metadata from multiple sources accessible by a plurality of different types of users, and tracking access to and changes in data in a database in response to user database access to thereby form transaction activity trails describing access and changed data to enhance digital file management and allow a plurality of media content management services to be performed.

20. (WO 2007/021801) METHOD AND APPARATUS FOR GENERATING LIQUIDITY FOR DISSIMILAR ASSETS USING CATEGORY GROUPINGS 22.02.2007 G06Q 40/00 MICROTICK, LLC
A system, method and means creates liquid markets capable of grouping assets by correlation and trading the grouped assets as intangible category markets in addition to the individual assets. The category markets are correlated to the individual assets by standardized covariance options. The resulting marketplace has uses for standardized trading of dissimilar assets, information markets, prediction markets and related search engine technology as well as any other asset markets.

21. (WO 2007/021644) EQUITY-INDEXED ANNUITY FOR GROUP SAVINGS GROGRAMS 22.02.2007 G06Q 40/00 ELM INCOME GROUP, INC.
A Group Equity-Indexed Annuity (GEIA) with a guaranteed minimum equity related return for a set of individuals are provided. An algorithm sets a 'participation rate' of a GEIA contract as well as the carrier margin, risk and opportunity for recovery. The carrier is held accountable to the participation rate produced by the model investment portfolio in the formula and subject to the guaranteed minimum. The selection of the participation rate is entirely visible to a GEIA contract-holder. A 'hedge budget' is based on a formula-driven amortization process that blends old and new money. Underlying assets are also managed to a 'constant' duration, such as the duration of a bond index selected by the GEIA contract-holder.

22. (WO 2007/019085) SYSTEM AND METHOD FOR ORGANIZATION OF FINANCIAL STRUCTURED PRODUCTS 15.02.2007 G06Q 40/00 SPARAGGIS, Panayotis, T.
A method of analytically modeling structured products and optimizing portfolios of structured products, comprising: relating investors' financial risk/reward objectives to structured products available in an structured product database; selecting structured products that qualify for inclusion in an structured product pool that targets to meet investors' objectives; and using advanced analytical computer aided techniques including Monte-Carlo analytical simulation to evaluate risk/reward characteristics of different portfolios of structured products and determining the optimal mix of available structured products for inclusion in an structured product pool that targets a specified set of investors' risk/reward objectives.

23. (WO 2007/013968) REAL-TIME PLAY VALUATION 01.02.2007 A63F 13/00 PROTRADE SPORTS, INC.
A valuation system determines in real-time values of plays occurring during games by identifying a play that occurred during a game. The system determines an expectation of scoring prior to the play occurring, and an expectation of scoring that results from the play occurring. The system then calculates a value of the play as the difference between the expectation of scoring that results from the play occurring and the expectation of scoring that existed prior to the play occurring, and any scoring generated by the play.

24. (WO 2007/002843) SYSTEMS AND METHODS FOR VENDING AND ACQUIRING ORDER PRIORITY 04.01.2007 G06Q 40/00 ESPEED, INC.
Systems and methods for vending and acquiring of trading priority in electronic trading systems are provided. The systems and method provide for vending and acquiring priority in any suitable electronic trading system. Such suitable electronic trading systems include, but are not limited to, hit/lift exclusive priority systems, price time priority systems, order allocation systems, and request for quote systems.

25. (WO 2007/002839) SYSTEM AND METHOD FOR LOW LATENCY DATA 04.01.2007 G06Q 40/00 MERRILL LYNCH & CO., INC.

A method for low latency data comprises receiving a data stream comprising data from a data source, receiving the data via one or more queues, where each of the one or more queues is associated with one or more filters adapted to filter the data based at least upon a time predicate to create filtered data. Each of the one or more filters is established by one or more subscribers. The method also comprises receiving a portion of the filtered data that was filtered by a filter established by a particular one or more subscribers, and publishing the portion of the filtered data for the particular one or more subscribers.

EXCHANGE INC.

The disclosed systems and methods relate to allowing trading of over the counter ('OTC') foreign exchange ('FX') contracts on a centralized matching and clearing mechanism. The disclosed systems and methods allow for anonymous transactions, centralized clearing, efficient settlement and the provision of risk management/credit screening mechanisms to lower risk, reduce transaction cost and improve the liquidity in the FX market place. In particular, the disclosed embodiments increase speed of execution facilitating growing demand for algorithmic trading, increased price transparency, lower cost of trading, customer to customer trading, and automated asset allocations, recurring trades as well as clearing and settlement efficiencies.

6. (WO 2007/002759) SYSTEM AND METHOD FOR CONTROLLING DEALER/CONSUMER INTERACTION 04.01.2007 G06Q 10/00 NAMX, INC.

A system and method, for example, for enabling a dealer to provide information regarding inventory and non-inventory tangible goods, enabling inventory of tangible good selling dealers to be sold to a consumer at a remote tangible good purchasing dealer site, and enabling a tangible good selling dealer to select from at least two product variables for negotiating a tangible good sale with a consumer. The system may include a computer system configured to provide information regarding an inventory tangible good actionable price, provide information regarding a non-inventory tangible good actionable price, and integrate the inventory and non-inventory tangible good information into a retail sales presentation to a consumer to enable the consu...

7. (WO 2007/002680) SYSTEM AND METHOD FOR CONTROL DISTRIBUTION AND PURCHASE OF WHOLESALE GOODS AND RELATED INTERACTIONS 04.01.2007 G06Q 30/00 NAMX, INC.

A system and method, for example, for distribution of wholesale goods, controlling dealer/consumer interaction, tangible good valuation, inventory control, facilitating the sale of a tangible good through an auction process, and generally, for control, distribution and purchase of wholesale goods and related interactions.

8. (WO 2006/126005) TRADING SYSTEM ORDER BOOK 30.11.2006 No IPC Found LONDON STOCK EXCHANGE PLC

No Abstract

9. (WO 2006/117680) CONSISTENT SET OF INTERFACES DERIVED FROM A BUSINESS OBJECT MODEL 09.11.2006 G06Q 40/00 SAP AG

A business object model, which reflects data that used during a given business transaction is utilized to generate interfaces. This business object model facilitates commercial transactions by providing consistent interfaces that are suitable for use across industries, across businesses, and across different departments within a business during a business transaction.

10. (WO 2006/103474) TRADING AND SETTLING ENHANCEMENTS TO ELECTRONIC FUTURES EXCHANGE 05.10.2006 G06Q 40/00 LIFFE ADMINISTRATION AND MANAGEMENT

No Abstract

11. (WO 2006/043925) BIONET SYSTEM FOR PERSONALIZING WEB CONTENT MANAGER 27.04.2006 G06F 17/30 MCCARTHY, John

A BioNet method, system and personalized web content manager responsive to browser viewers' psychological preferences, behavioral responses and physiological stress indicators for an advertising measurement and recommendation system that correlates the physiologic parameter responses to impressions of (World Wide Web and multimedia Web television) advertisements with post-impression transactional activity, clickthroughs and sales, to measure the effectiveness of the advertisements and recommend preferred media choices and media themes to media providers.

12. (WO 2006/036924) SYSTEM, METHOD AND APPARATUS FOR MODELING AND UTILIZING METRICS, PROCESSES AND TECHNOLOGY IN MARKETING APPLICATIONS 06.04.2006 G06Q 30/00 EMM GROUP, INC. (A Nevada Corporation)

A system, method and apparatus for modeling and utilizing metrics, processes and technology in marketing applications. According to multiple embodiments, the present invention includes marketing models, processes, metrics and software implementations and the integration thereof in marketing management tools for analysis of marketing functions and methodology. In one aspect the present invention provides for the strategic creation, nurturing and enhancement of

brand equity as a metric of the marketing process.

13. (WO 2006/029297) GAME THEORETIC PRIORITIZATION SCHEME FOR MOBILE AD HOC NETWORKS PERMITTING HIERARCHICAL DEFERENCE 16.03.2006 G06Q 40/00 HOFFBERG, Steven

A method for providing an unequal but fair allocation of rights among hierarchically ranked agents, comprising providing a synthetic economic value to a first set of agents at the agents to a second set of agents at respectively different hierarchical rank than the first set of agents (Fig. 1). And conducting an auction amongst agents using the synthetic economic value as the currency (Fig. 2). A method for allocating among agents, comprising assigning a wealth generation function for generating future wealth to each of a plurality of agents (Fig. 3).

14. (WO 2005/114517) RISK MANAGEMENT CONTRACTS AND METHOD AND APPARATUS FOR TRADING SAME 01.12.2005 G06F 17/60 HEDGESTREET, INC.

Key features of these methods, apparatus, and designs include (but are not limited to) innovations and implementations of futures securities custom tailored to specific clientele; the notion of using one or more variable pay-out futures contracts as devices for hedging; the notion of hedging contracts having variable pay-outs; the notion of variable pay-out hedging contracts having limited exposure; the notion of freezing assets of an originator of an order to buy or sell a variable pay-out contract sufficient to cover a maximum exposure of the contract; the notion of determining whether an originator of an order to buy or sell a variable pay-out contract has assets sufficient to cover the contract at the time of placing the order; the...

15. (WO 2005/038582) ASSET ANALYSIS ACCORDING TO THE REQUIRED YIELD METHOD 28.04.2005 G06Q 40/00 VAN ERLACH, Julian

A method, computer system, and computer program product for performing an asset analysis for at least one asset, using the Required Yield Method (RYM). The method provides first economic data relating to a first economy. The economic data includes a gross domestic product (GDP) per capita growth rate for the first economy. The economic data may further include an expected inflation rate for the first economy over a time interval. At least one asset characteristic (e.g. asset valuation) of each asset of the least one asset is computed. The at least one asset characteristic is a function of a portion of the economic data. The computing is in accordance with the RYM. The computed at least one asset characteristic is transferred to a tangible m...

16. (WO 2005/019986) ENHANCED PARIMUTUEL WAGERING 03.03.2005 G06Q 40/00 LONGITUDE, INC.

Methods and systems for engaging in enhanced parimutuel wagering and gaming. In one embodiment, different types of bets can be offered and processed in the same betting pool on an underlying event, such as a horse or dog race, a sporting event or a lottery, and the premiums and payouts of these different types of bets can be determined in the same betting pool, by configuring an equivalent combination of fundamental bets for each type of bet, and performing a demand-based valuation of each of the fundamental bets in the equivalent combination. In another embodiment, bettors can place bets in the betting pool with limit odds on the selected outcome of the underlying event. The bets with limit odds are not filled in whole or in part, unless t...

17. (WO 2005/003928) REPLICATED DERIVATIVES HAVING DEMAND-BASED, ADJUSTABLE RETURNS, AND TRADING EXCHANGE THEREFOR 13.01.2005 G06F 1/00 LONGITUDE, INC.

Methods and systems for trading and replicating contingent claims, such as derivatives strategies, in a demand-based auction are described. In one embodiment, a set of demand-based claims, each of which can be a vanilla option or a digital option, approximate or replicate the contingent claim into a vanilla replicating basis or a digital replicating basis, and the order for the contingent claim is then evaluated or processed in the demand-based auction. In another embodiment, a plurality of strikes and a plurality of replicating claims are established for a demand-based auction on an event, one or more replicating claims striking at each of the strikes in the auction. A contingent claim, such as derivatives strategy, is replicated with a re...

18. (WO 2005/003899) METHOD, SYSTEM AND APPARATUS FOR INFORMATION DELIVERY 13.01.2005 G06Q 30/00 NTECH PROPERTIES, INC.

NEWABSTRACT Embodiments of the present invention are directed to a method and apparatus for efficient, entertaining information delivery. In one embodiment, information is partitioned into clips (130). Clips (130) are selected for a user and packaged together for presentation to the user in an entertainment manner. In one embodiment, the clips (130) are selected and packaged together in accordance with a template. In another embodiment, information about the user is used to select clips (130). In one embodiment, a user is presented with a stream of information comprised of clips of information assembled for the user. The user may select a clip (130) to retrieve additional information related to

clip of information assembled for the user. The user may select a clip (100) to retrieve additional information related to the clip (140). In one embodiment, the selecte...

19. (WO 2004/088473) FREIGHT FULFILLMENT AND TRADING PLATFORM 14.10.2004 G06F 17/60 FUTUREFREIGHT CORPORATION

Network-based, computer-implemented techniques and arrangements for fulfilling multi-modal freight shipment involving at least two transportation modes between a first location and a second location are disclosed. In one implementation, there is included receiving a derivative purchase request for capacity between the first location and the second location, the derivative purchase request having contract requirements that specify at least a shipment volume and a performance time. There is further included ascertaining from a database of available derivative contracts a plurality of potentially suitable derivative contracts that satisfy the contract requirements. There is also included selecting a subset of the plurality of potentially suitable...

20. (WO 2004/068384) GUARANTEED PHYSICAL DELIVERY FUTURES CONTRACT AND METHOD AND SYSTEM OF CONSOLIDATING SAME 12.08.2004 G06F 17/60 HESS ENERGY TRADING COMPANY LLC

A guaranteed physical delivery futures contract and method and system for consolidating same are disclosed. The method includes guaranteeing physical delivery for future positions of market participants having open first-nearby time positions of a particular size, making additions to or subtractions from open first-nearby time positions of market participants that are less than the particular size and offsetting the additions to and subtractions from market participants' open first-nearby time positions with opposite positions in a second-nearby time. The system includes one or more servers and communications links, the communications links for receiving position data, including open positions, and the servers are configured to make...

21. (WO 2003/085491) DERIVATIVES HAVING DEMAND-BASED, ADJUSTABLE RETURNS, AND TRADING EXCHANGE THEREFOR 16.10.2003 G06F 17/60 LONGITUDE, INC.

A system and method for replicating derivatives strategies and for trading derivatives strategies in a demandbased trading market is provided. The system and method include a plurality of client devices (160) to (200) for establishing communications to a central controller (100). The central controller (100) includes an application server (210) responsible for processing requests for services and for routing the requests for services to other software and hardware components within central controller (100). An object request broker (ORB) (230) functions for receiving, aggregating and marshalling service requests from the software application server (210). A transaction server (240) functions for updating investor account and for processing ...

22. (WO 2003/083602) SYSTEM AND METHOD FOR CONDUCTING WEB-BASED FINANCIAL TRANSACTIONS IN CAPITAL MARKETS 09.10.2003 G06Q 30/00 INTEGRAL DEVELOPMENT CORPORATION

A method and system that enable users to interactively engage in capital market transactions via the internet (10). The system includes a variety of servers (90, 100), applications, and interfaces that enable users to interactively communicate and trade financial instruments among one another, and to manage their portfolios.

23. (WO 2003/034300) MARKETING COMMUNICATION AND TRANSACTION/DISTRIBUTION SERVICES PLATFORM FOR BUILDING AND MANAGING PERSONALIZED CUSTOMER RELATIONSHIPS 24.04.2003 G06Q 30/00 VAN DER RIET, Ramon

No Abstract

24. (WO 2003/023575) DIGITAL OPTIONS HAVING DEMAND-BASED, ADJUSTABLE RETURNS, AND TRADING EXCHANGE THEREFOR 20.03.2003 G06Q 50/00 LONGITUDE, INC.

Methods and systems for conducting demand-based trading are described. In one embodiment, states are established, each state corresponding to at least one possible outcome of an event (264) of economic significance. An investment amount may be determined as a function of a selected outcome, a desired payout (266), and a total amount invested in the states (264). In another embodiment, an investment amount may be determined as a function of parameters of a financial product. In another embodiment, a payout may be determined as a function of an investment amount, a selected outcome, a total amount invested in the states, and an identification of a state corresponding to an observed outcome (263) of the event.

25. (WO 2002/095539) PORTFOLIO HEDGING METHOD

28.11.2002 G06Q 40/00 MORGAN STANLEY

A method and system is provided by which an entity manages an exposure to an economic risk associated with a commodity and initially includes the step of modeling the exposure to the risk using financial instruments such as forward contracts and option contracts. Next, a hedge for the exposure is executed. Liquidated cash flows, that are based on the modeled exposure and said hedge, are periodically calculated. If liquidated cash flows are positive, a payout is provided to the entity while a payout is received from the entity if the liquidated cash flows are negative. In an exemplary embodiment, the liquidated cash flows are marked to the market.
